## HAVE YOUR SAY ON REGIONAL TELECOMMUNICATION SERVICES

---

Have you been experiencing access issues with your broadband or mobile data? If yes, there is now a Regional Telecommunications Review underway and the review committee want to hear from you.

Regional communities and organisations now have an opportunity to share their first hand experiences with the committee by lodging a submission at [www.rtirc.gov.au/consultation](http://www.rtirc.gov.au/consultation) until 5pm Sunday 5 August 2018.

The areas of interest will include how you use your broadband service and what kind of barriers you come across? What could telecommunication services do to increase the benefits of using this technology? How might more service providers be encouraged to provide broadband services in the regional?

If you are a business owner then how can regional businesses better utilise digital technologies to maximise economic benefits, and what emerging digital services will be most beneficial to your business? Do you currently use another service other than NBN?

These topics and many more are all areas that need to be discussed, and the more feedback received the better future needs may be met.

For more information and details on how to make a submission visit [www.rtirc.gov.au/consultation](http://www.rtirc.gov.au/consultation), and if you have trouble accessing this information from home please use the computer facilities at Narrandera Shire Library.
