

Building Records Search

Application for Information

Please note that fees for this service are charged out at the rate of \$150 per hour with the base amount of \$75 to be paid up front before search is commenced.

Council does not have electronic records of any applications or approvals prior to 2000. These files are stored in archives and require a physical search of records. Applications and approvals from 2000 onward are better recorded and quicker to find.

The building records search is usually processed within 10 working days, once lodged (fees paid), and will be emailed to the address specified on the application. Older buildings and applications with less detail can take longer.
